# ICT FOR DEVELOPMENT AND SOCIAL GOOD

Knowledge. Skills. Critical thinking.

International agencies and non-profit organizations are increasingly looking for project managers and development professionals who have excellent capabilities on the use of digital technologies for social good.

By developing solid knowledge in the effective planning, development, implementation and management of ICT4D initiatives in many different sectors, such as Data Collection and Visualization, Health, Agriculture, Environment, Human Rights, Emergencies and Civic Engagement you will gain a professional profile that corresponds to the labor market demands.

## Five Units

- **Unit I:** Development and social innovation challenges
- **Unit II:** Technology for Development and Human-Centred Design
- **Unit III:** Data for Social Good
- **Unit IV:** ICT in Development Sectors
