La Cooperazione Internazionale ai tempi del Covid

4 MARZO 2021 - ONLINE

Workshop 1
How to rethink development and cooperation projects in times of pandemic
Question 1
Which are the goals of rethinking development and cooperation projects in times of pandemic? Which targets do you expect to achieve?

- Focusing on long term locally owned priorities
- Ensure more continuity to projects
- Building local ownership
- Promoting inclusion in digital contexts
- Making a real change
- Impact on people lives
- To transform a crisis into an opportunity
- Opportunity for a new better start
- Make a real change
- Building local ownership
- Local cooperation
- Create new, open, win-win partnerships
- Profit from the new digital possibilities to cut the distances
- More solidarity-opportunity to decolonize development and cooperation interventions
- Question the "donor-recipient" paradigm and build new forms of international partnerships
- Remake the application of participatory methodologies
- Better cooperation
- Enhance the local ownership
- Manage remote feedback
- Riding the opportunity of technology adoption to digitally-enable cooperation, improve efficiency & reduce costs
- To cope with misunderstanding resulting from the lack of face-to-face conversation
- Not to lose all our achievements and keep the contact with our partners
Focus on Local Communities

- Building local ownership
- Enhance the local ownership
- More solidarity-opportunity to decolonize development and cooperation interventions
- Make a real change
- Impact on people lives
- Manage remote feedback
- Local cooperation
- A more central role of local partners
- Remake the application of participatory methodologies

Focusing on long term locally owned priorities
Digital-Enable Cooperation

- **To transform a crisis into an opportunity**
  - Cope with misunderstanding resulting from the lack of face-to-face conversation

- **Manage remote feedback**
  - Remake the application of participatory methodologies
  - Ensure more continuity to projects
  - Design projects with a more integrated approach. Without underestimating the peculiarity of each topic addressed by dev.coop., always consider their Interdisciplinarity in designed interventions.

- **Profit from the new digital possibilities to cut the distances**
  - Riding the opportunity of technology adoption to digitally-enable cooperation, improve efficiency & reduce costs

- **to improve efficiency and reduce gaps and distances between actors**
The Importance of Partnerships

- Question the "donor-recipient" paradigm and build new forms of international partnerships
- More solidarity-opportunity to decolonize development and cooperation interventions
- Not to lose all our achievements and keep the contact with our partners
- Create new, open, win-win partnerships
- To improve efficiency and reduce gaps and distances between actors
